Safety Culture Conference 2023

- Background

Introduction:

This year's Safety Culture Conference will take place at the Bristol Harbour Hotel, Bristol.

This 1.5 day Conference will provide approx. 100 industry representatives the opportunity to hear from expert speakers, share good practices and promote effective safety cultures for all.

Delegates will be invited to discuss the challenges they face in developing safety culture within their organisations, the successes they have achieved and the next steps they are looking to take.

This event will be open to both members and non-members of the Chamber.

On the evening of the 3rd October, delegates will be able to enjoy a Food & Drink Reception which will provide a networking opportunity and a chance to discuss the outcomes of the day.
